

AMRITA KUMARI

Web Developer

✉ dev.amritasrc@gmail.com  LinkedIn  GitHub  Website  Ranchi, India

PROFESSIONAL SUMMARY

Frontend-focused web developer with experience building dynamic applications using JavaScript, React, HTML, and CSS. Skilled in API integration, DOM manipulation, and developing practical solutions such as browser extensions. Passionate about modern web development and creating clean, user-friendly interfaces.

WORK EXPERIENCE

Web Developer | Freelance Aug 2026 - Aug 2026
Plastrone India Engineering Solutions LLP Ranchi, Jharkhand

- Engineered 10+ responsive UI templates into modular React components styled with Tailwind CSS, improving cross-device compatibility.
- Integrated React Router and dynamic state management to deliver fast, single-page application (SPA) layouts with zero page-reload latency.

Technologies / Skills Used : React, Tailwind CSS, Javascript

PROJECTS

CopyIt |  Github  Website Jul 2026 - Jul 2026
Individual project

- Built a full-stack Code Snippet Vault with React.js, Tailwind CSS, Supabase, and Monaco Editor, supporting 5+ core snippet management features.
- Integrated Monaco Editor with CRUD operations and syntax highlighting across 10+ programming languages.
- Implemented keyword search, language selection, and responsive UI, delivering an IDE-like experience for reusable code management.

Technologies / Tools Used : React, Tailwind CSS, JavaScript

Rhythmify |  Github  Website Jun 2026 - Jun 2026
Individual project

- Developed Rhythmify, a React-based music player integrating the YouTube Data API to search and stream songs through a custom playback interface.
- Built custom media controls with play/pause, seek, keyboard shortcuts, and real-time progress tracking in a responsive UI across 3+ screen sizes.

Technologies / Tools Used : React, Tailwind CSS, JavaScript

YouTube Study Mode (Chrome Extension) |  Github May 2026 - May 2026
Individual project

- Built a Chrome extension that blocks 4+ major distracting elements on YouTube using DOM manipulation and CSS.
- Used content scripts and CSS to dynamically modify the DOM and maintain focus mode across navigation.

Technologies / Tools Used : JavaScript, HTML, CSS, Chrome Extensions API
