

AMRITA KUMARI

Frontend Web Developer

☎ 8877130191 ✉ dev.amritasrc@gmail.com 🌐 LinkedIn 🐙 GitHub 🌐 Website 📍 Ranchi, India

PROFESSIONAL SUMMARY

Frontend-focused web developer with experience building dynamic applications using JavaScript, React, HTML, and CSS. Skilled in API integration, DOM manipulation, and developing practical solutions such as browser extensions. Passionate about modern web development and creating clean, user-friendly interfaces.

EDUCATION

Jharkhand Rai University | Ranchi

Sep 2024 - Present

B.Tech in Computer Science and Engineering

CGPA : 9.09

PROJECTS

YouTube Study Mode (Chrome Extension) | 🐙 Github

May 2026 - May 2026

Individual project

- Built a Chrome extension that blocks 4+ major distracting elements on YouTube using DOM manipulation and CSS.
- Used content scripts and CSS to dynamically modify the DOM and maintain focus mode across navigation.

Technologies / Tools Used : JavaScript, HTML, CSS, Chrome Extensions API

Expense Tracker | 🐙 Github 🌐 Website

May 2026 - May 2026

Individual project

- Built a responsive expense tracker using React, Tailwind CSS, and Framer Motion with real-time tracking across 5+ expense categories.
- Implemented dynamic state management and responsive design for seamless balance updates and smooth user interaction.

Technologies / Tools Used : React, Tailwind CSS, Framer Motion

AniVerse | 🐙 Github 🌐 Website

Mar 2026 - Mar 2026

Individual project

- Built a web application that fetches and renders anime data from an external API, dynamically displaying multiple results per user search across the UI
- Designed a fully responsive interface optimized for 3+ screen sizes (desktop, tablet, mobile) for seamless browsing experience

Technologies / Tools Used : JavaScript, HTML, CSS

Background Gradient Generator | 🐙 Github 🌐 Website

Feb 2026 - Feb 2026

Individual project

- Built a web-based background gradient generator enabling users to create and preview gradients in real time, reducing design iteration time by ~40%.
- Implemented instant CSS code generation with one-click copy, improving developer workflow efficiency and cutting integration time by ~50%.

Technologies / Tools Used : JavaScript, HTML, CSS

SKILLS

Databases : Supabase

Frameworks & Libraries : React, Tailwind CSS, Framer Motion

Languages : English, Hindi

Programming Languages : C, C++, Java, Python, JavaScript

Soft Skills : Communication, Leadership, Critical Thinking, Decision Making, Problem Solving

Tools & Platforms : Git, GitHub
